

Ohio Institute of Allied Health

School of Integrative Healthcare

Student Activities

The programs offered at OIAH are not entirely limited to the classroom experience. Students are encouraged to participate in the Student Council. This allows the student to provide opinions or suggestions on ways to improve the education experience while attending OIAH.

Other activities include:

- Volunteering at local business events by providing free massages and blood pressure screening
- Hearing from guest speakers, such as experts in their field of study; local employers providing insight to the medical field
- Participating in various Health Fairs which the school participates
